SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Section Abstract: Please update the epidemiological information and provide the reference (as of April 1st the number of infections is 2,818,170 and deaths are estimated at 2,818,170. The most commonly used reference is the John Hopkins COVID site but any other is also acceptable. I suggest that the authors state that "As of XXXXX, the global number of infections....." and provide a reference for regular updates.</p> <p>Part of the text in section 4.4. UV light can be deleted (marked in the text).</p> <p>In section on COVID-19 treatment, monoclonal antibody-based therapy by using a combination of casirivimab and imdevimab that received Emergency Use Authorisation by the FDA on November 21st 2020 should be included</p>	
Minor REVISION comments	<p>Section. 2. Similarities and differences of SARS-CoV-2 from other viruses, "binding self-receptor cells"- unclear, please rephrase</p> <p>Section 3. Transmission of COVID-19, since COVID-19 is a disease, the name of the section should be changed to "Transmission of SARS-CoV-2", "<i>Coronaviridae</i>" should be in italics.</p> <p>A sentence "Coronavirus has 40 different varieties" should be replaced with "Genus Coronavirus includesstrains..."</p> <p>Stage 2 local transmission. "COVID-19- infected people" should be change to "SARS-CoV-2-infected people"</p> <p>Additional references to specific studies that were used as a source data for the figures are needed (marked by using "insert comment" option)</p> <p>Suggested language changes are marked in the text.</p>	
Optional/General comments	An excellent review of COVID-19.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
