PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	As we know, physiotherapeutic techniques of Asthma include breathing exercises, inspiratory muscle training and physical training and so on. I think the specific physiotherapeutic techniques presented in this article is postural drainage and proper relaxation in order to address psychological aspects with the patient. The author could discuss more detail about the role of physiotherapy for Asthma control based on previous high quality systematic review and the guideline.	
Optional/General comments	This article reported a physiotherapeutic approach along with uncontrolled harmacotherapy of Bronchial Asthma in an adult. This case was addressed physiotherapy was a benefit accessory therapy in terms of uncontrolled harmacotherapy of Bronchial Asthma. It is a recommendable clinical case about poorly controlled harmacotherapy of Bronchial Asthma.
