

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_71364
Title of the Manuscript:	Overview on the Prevalence, Risk Factors and Surgical Management of Temporomandibular Joint Dislocation: A Review Article
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Extensive grammatical correction required, the content is not clear and it is very difficult to discern the intended message. The purpose of a review article is to summarize existing data in a comprehensive way that may serve as an easy reference for the reader, which has not been achieved.</p> <p>examples: "communal form of mandibular dislocation, typically subordinate to traumatic reasons" – presumably meaning it is the commonest presentation, usually due to traumatic aetiology. However, the reader should not have to puzzle this out for themselves.</p> <p>There is also no conclusion or summary at the end, ending rather abruptly with complications.</p>	
Minor REVISION comments		
Optional/General comments		

Review Form 1.6

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
