PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Nil	
Minor REVISION comments	<ul style="list-style-type: none">➤ The authors reviewed for many list of antibiotics, but it would be better review if they defend why ciprofloxacin is more used.➤ The use of particular antibiotics has its own side effect in the system or in or to the environment, which can be compared with other non-side effect antibiotics.➤ Term COVID-19 is used here and the effect of antibiotics used for COVID were not described.➤ In conclusion the authors mentioned that secondary infection may have reduced due to the use of antibiotics, but does AMR will have any control in viral infection was not discussed.➤ The authors did not mention about the combination of the phyto constituents which acts as the best antibiotic adjuvants can be used for treatment.	
Optional/General comments	I appreciate the authors for their extensive comparison with the current scenario with the literatures.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
