### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

### **PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>These manuscript needs essential major revision, from punctuation, to redaction, sentence structure, and English translation as well.</p> <p>It needs correction to all the sections (from abstract to references).</p> <p>Don't use in the title "from both genders" if you are not introducing comparison data between gender groups. Add in the title the country, region these people are coming.</p> <p>Pay attention to abbreviation used in it, English translation, graph and tables titles, data inside the graphs, correct references details and citations.</p> <p>The study design and statistics need to be more detailed.</p> <p>Avoid to use the same idea again and again for all the parameters, put them together in the same context.</p> <p>Add in the text exactly the p calculated for each parameter.</p> <p>Add details about country, year of study, methods of sampling, inclusion and exclusion criteria used, consent and ethics aprovals etc.</p> <p>Rewrite properly the references, and uniformly to all of them.</p> <p>See the correction I made in general in the manuscript, in red text, and recommendations with yellow background.</p>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments
