PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Add in the methodology a brief explanation of the ethical aspects that were taken into account in the application of the surveys.	
<u>Minor</u> REVISION comments	Briefly explain if there was another type of validation to the questionnaires other than validation by experts	
<u>Optional/General</u> comments	This manuscript contains aspects of interest to the dental profession, when inquiring about knowledge, practices and attitudes about tetracycline staining. Generally, articles on this topic investigate the appropriate methods but do not know what the clinical practitioner does in his dental office.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i> In the manuscript, (methodology section) they do not explain the ethical aspects of their research.
