

SDI Review Form 1.6

Journal Name:	Journal of Scientific Research and Reports
Manuscript Number:	Ms_JSRR_61298
Title of the Manuscript:	TOUGHNESS FACTORS REFLECTIONS ON M-40 CC BY PART OUSTING CEMENT BY SCBA & ADDING SIYALI FIBER
Type of the Article	Research Project

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This manuscript is talking about a research project where it used some solid waste materials in cement concrete. The abstract is too long, and so, I tried to reduce it as possible. It does not contain the obtained results. The obtained results are good and correct to a large extent. The authors supported the obtained results by using more recent references (About 14 references on the last ten years). This is very good.	
Minor REVISION comments	The manuscript contains many typing and grammar mistakes. So, I suggest that:- 1- The underlined yellow color words, sentences, brackets and punctuation marks must be removed from the manuscript. 2-The red color letters, words, sentences, brackets and punctuation marks must be added in the manuscript.	
Optional/General comments	The project is interested with the mechanical properties of cement concrete containing two types of waste materials and the obtained results are somewhat good,	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
