PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>1) Mention about the season and stage of leaf collection as season and growing stage of leaves have significant influence on the level of active constituents</p> <p>2) Mention about the process of phytochemical analysis along with the machine used.</p> <p>3) Relevance of Table 7 is not clear and if needed, a comparison needs to be made with the leaf extracts. Also full form of PaT, StT are missing.</p> <p>4) Simple grammatical errors and spelling mistakes need to be corrected. Revisit the entire manuscript.</p> <p>5) Discrepancy between the statement made in discussion and conclusion as highlighted in the red colour. In one section, ethanol was reported to be effective while in other section, methanol was the case. Please state clearly.</p>	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
